

APPLICATION INFORMATION (On-line)

Thank you for showing an interest in a career with the Sherwood Forest Hospitals Foundation Trust. Please read these guidance notes carefully before completing the application form. They may seem a little lengthy and detailed – but they will guide you through your application and explain the importance of understanding the relevance of the Job Description and Person Specification when applying for a post.

Please note that the Trust uses the TRAC recruitment system, a third-party provider, to administer all job application forms. This system is in line with GDPR. Application forms submitted to NHS Jobs will be automatically downloaded into the TRAC system.

If you require any support in completing the application form or attending an interview please do not hesitate to contact the Recruitment Team on 01623 622515, extension 3271 or sfh-tr.recruitmentqueries@nhs.net and we will be happy to provide assistance.

Closing Dates

You are advised to make your application as soon as possible for the best chance of making the shortlisting stage. Applications received after the closing date will not be accepted.

Before you start your application

Take time to fully familiarise yourself with the post by re-reading the advertisement together with the Job Description/Person Specification which have been provided. Contact the Appointing Officer if you have any queries relating to the post – they will be happy to discuss the post with you.

The **Job Description** outlines the main duties of the post – you should be sure that these appeal to you and that you have the appropriate skills, experience and values/behaviours to be able to achieve in the role.

The **Person Specification** details the **essential** and **desirable** criteria that the role requires, i.e. the qualifications, skills, experience and knowledge required for the post. If you do not demonstrate that you meet the **essential** criteria on your application form, then unfortunately you may not be short-listed for interview. The best way to do this is to use examples from your previous experience, don't just put down that you can do it – tell us how you did it! Don't be put off if you don't hold modern educational qualifications (e.g. Business Administration Degree) as you may have the equivalent in evidenced work experience. However, some roles do require formal qualifications, such as being a registered nurse – there is no equivalent experience for that!

Pre-application Questions

You may find an initial set of filtering questions to answer before you are allowed access to the application form. Please be aware that answering NO to a filtering questions will mean that you do not have the criteria that is essential for the post and if you continue with your application and submit it we are unable to proceed further and you will not be shortlisted.

How do we decide who to shortlist?

In accordance with UK legislation, the information that you provide in your application is the only information that the Shortlisting Panel is allowed to use when deciding whether or not you will be shortlisted. It is vital that you include details and examples pertinent to the Person Specification accurately, honestly and fully as you must **evidence** that you meet the criteria, otherwise the Panel cannot shortlist you. Always give examples against each of the essential and desirable criteria. The way that we score is very simple and ensures that we are fair to all individuals.

CVs

Unless specified, you are advised **NOT** to attach CVs, but enter the appropriate information onto the application form.

COMPLETING YOUR JOB APPLICATION

In submitting an application, you authorise SFHTR to confirm any current and previous NHS Service details and you agree to the Trust obtaining and transferring personal data held about you, including Occupational Health data (inoculations and screening tests). This data will be shared using the NHS Electronic Staff Record (ESR) and third-party systems via an automated process and will only be used for the purposes of maintaining your employment record.

Priority for vacancies at the Trust will be given to existing NHS employees ~SFHTR whose roles are currently at risk of redundancy due to organisational change.

Personal Information

Please complete this section as fully as possible. Some questions are mandatory and will be marked with an asterisk*.

Educational & Professional Qualifications

(The Person Specification will detail which are essential)

Include the level and result/grade of any essential qualifications identified in your application as omission of this information will prevent you from being short-listed. If you are selected offered the post, you will be asked to provide certificates as part of the recruitment process.

Chief Executive Paul Robinson

Training Courses Attended

Don't forget to include any training courses that you have attended (even if they are not specifically work related) as they could be pertinent to the post for which you have applied.

Membership of Professional Bodies

(if relevant to the post the Person Specification will detail this)

Include this information otherwise you will not evidence meeting the essential criteria if this is relevant to the post. Any formal offer of employment will be subject to confirmation of professional registration where this is appropriate to the post.

Employment History

When completing this section, please ensure that both the month and year are included for each employment. If you have no previous employment, you could provide details of any work experience that you have undertaken through your school, or any voluntary work you have undertaken.

References

All candidates successful at interview and formally offered employment will be required to provide referees validating at least three years of previous employment and/or training. The Recruitment Team often experience difficulty in obtaining references to support a formal offer as the referees are not aware that they have been identified. To help us help you, please contact your potential referees and ask permission to identify them on your application form. Referees are not obliged to provide references so you do need to make sure that they are happy to do so, otherwise this would delay any confirmation of appointment. It also incurs additional unnecessary administration costs for the NHS which we are working hard to avoid.

Please note that we will not accept references from a member of your family, a personal friend or peer colleague. Colleagues of a higher banding without management responsibility for you are acceptable in some instances. Teacher Governors, Lecturers, Volunteer and Charity management representatives are also acceptable if you are not or have never been in paid employment. Please call us to discuss if this is the case.

If your current or most recent role is working within the NHS, a factual reference and details of your previous NHS continuous service record will be requested if you are successfully offered a position within SFHTR. This will be sent electronically via 'Inter Authority Transfer' between ESR staff records when an offer of employment has been made. Please note that previous NHS bank work only does not count towards continuous service.

Supporting Information

This section is your opportunity to explain your reasons for showing an interest in the post and evidence to the Shortlisting Panel how you meet the criteria (essential and desirable if you have them all) from the Person Specification. It is important that you include all previous relevant experience, including any voluntary or other unpaid work.

It is recommended that you complete this part of the application first – as it's the most important!

The On-Line form can accommodate a large amount of text and will continue to expand. *(Note: that your on-line application is held securely within www.jobs.nhs.uk and can be utilised repeatedly, i.e. if you apply online this time you can reuse the same information, altered accordingly each time, for multiple applications. So if you were not successful with this post, you are ready to apply for others within the NHS at the appropriate time.)*

Additional Personal Information

This section asks for further information on ability to travel and preferred employment type. You are also asked to explain any gaps in employment history, reasons why you left or are considering leaving your current employment and a question about your values. Our recruitment process is values based and therefore your values will be assessed during this process.

Monitoring Information

The aim of our Equal Opportunities Policy is to ensure that ALL applicants for posts within the NHS do not receive less favourable treatment on the grounds of sex, marital status, disability, race, sexual orientation, nationality, ethnic origin, religious beliefs or age, neither will candidates be placed at a disadvantage by imposed conditions or requirements that cannot be justified. Please complete the monitoring information section. The information is needed for statistical purposes only and is NOT made available to the Shortlisting Panel.

Safeguarding (Rehabilitation of Offenders Act/Criminal Convictions)

Under the terms of the Rehabilitation of Offenders Act 1974 (Exemptions) and (Amendment) Order 1986 there are occasions where convictions, although normally 'spent', can be taken into account. Because of the nature of NHS work caring for some of society's most vulnerable people, you **must** disclose any conviction, action, binding over or caution, including all spent convictions, as an Enhanced DBS **will** include these. If you fail to disclose such convictions and are appointed, then this could result in dismissal or disciplinary action by the Trust. Such convictions will be discussed with the candidate only if the conviction is considered relevant to the post. NHS roles are covered under the DBS reference 25 of the Rehabilitation of Offenders Act 1974 eligibility guidance supplied by the DBS.

Declaration

Applying on-line via jobs.nhs.uk you will have been asked to check a declaration box – this is the same as signing your name. Please press SAVE and check your application. Once you are satisfied that you have completed the forms, press SUBMIT and your application is available to us almost instantly. (Note – once you have pressed SUBMIT you will not be able to access the application again, so please take care.)

If you encounter technical difficulties www.jobs.nhs.uk promise to respond within 30 minutes if you contact them via the site.

Email the Recruitment Team on sfh-tr.recruitmentqueries@nhs.net or call us on 01623 622515 ext. 3271 if NHS Jobs cannot help. Please contact the Appointing Officer for any queries regarding the job role rather than the Recruitment Team.

PRE-EMPLOYMENT CHECKS

It is mandatory for all successful candidates to undergo pre-employment checks and that any formal offer of employment is made subject to those being satisfactory to the Trust. There are several checks conducted and specific details of those that are applicable to this post will be sent to you if your application is successful and you are invited to interview, however shown below is information on checks available.

Identity

All candidates attending interview will be asked to bring with them documents to prove their identity. Original documents only will be accepted. Please ensure you bring your correct ID documentation to interview, otherwise this could delay the recruitment process.

Entitlement to Work in UK

All candidates attending interview will be checked to ensure they are entitled to work in the UK. Candidates will be asked to bring relevant documents (original only). Further steps may be necessary in cases where work permits/visas are required.

Qualifications

Candidates will be required to bring the necessary original certificates of any qualifications that are a requirement of the post to their ID check.

Professional Registration

For those posts that require professional registration, candidates will be asked to bring details to interview. These will subsequently be checked with the relevant authority/body.

Criminal Records

If this post requires a DBS check (Disclosure & Barring Service) you will be sent the relevant forms for completion if you are successful at interview. All candidates are also required to complete a Declaration Form confirming their status regarding criminal offences. This is in line with the DBS Code of Practice which can be provided upon request.

NHS Alerts/Fraud Checks

All candidates successful at interview will be checked to see if they are subject to an NHS Alert/Fraud check.

Medical Clearance

If you are successful at interview and formally offered the post, you will be required to complete a Declaration of Health form and any offer of appointment will be subject to medical clearance. This information is confidential between you and the Occupational Health Department.

Healthier Communities, Outstanding Care

If offered the post, Occupational Health will only declare to the Line Manager whether you are fit for the post or not. Please be assured that we operate within the Equality Act framework and will adjust the workplace accordingly if it is feasible to do so.

We hope that these notes are useful – please let us have any suggestions you may have on improving them if not. Good luck with your application – we hope to invite you for interview very soon.
