

Northern Care Alliance Job Description & Person Specification

Be developed • Be supported • Be inspired • Be empowered • Be rewarded • Make a difference

Saving lives, Improving lives

We're thrilled you're thinking of joining us!

Our new Northern Care Alliance NHS Group unites five local hospitals to deliver high quality care across the North East of Greater Manchester.

The Alliance provides the benefits of scale but delivers this locally through multiple hospital sites which make up four new Care Organisations – Bury/Rochdale, North Manchester, Oldham and Salford. Using our mantra of 'Saving lives, Improving lives', the aim is for our Care Organisations to work closely with the communities they serve to deliver safe, high quality and reliable care, which are trusted, connected and pioneering.

Our Care Organisations are designed within to operate our aroup arrangement of hospitals, community and healthcare services which bring together over 17,000 staff and the services of The Pennine Acute Hospitals NHS Trust and Salford Royal NHS Foundation Trust. Our size and geographical reach means we are creating an environment each individual will be inspired and empowered by to be the best they can be. This is a really exciting time to join our new team.

Salford Royal NHS Foundation Trust was rated an 'Outstanding Trust' for the second time by the Care Quality Commission (CQC) in 2018. This achievement marked Salford Royal as the only NHS acute and community Trust in the UK to be rated as Salford Care Organisation

Northern Care Alliance

Outstanding on two consecutive occasions.

The Trust is consistently rated as one of the best places to work in the NHS and here are just a few of the reasons why:

- Major teaching hospital for the Universities of Salford & Manchester.
- Recent investment of £200 million to develop our main hospital site.
- Leading Major Trauma Centre for Greater Manchester, largest Dermatology Centre in Europe, leading UK centre for Neurosciences, leading centre for clinical trials and other studies.
- Identified as a Global Digital Examplar, a key part of the NHS Driving Digital Maturity programme.

The Trust has many nationally and internationally renowned clinicians who are pioneering the latest techniques and treatments. The Trust has an excellent reputation for quality and innovative clinical services, teaching and research.

In Salford the NCA was proud to be able to develop one of the country's first integrated health and social care services. This joins up the best of health, social care and support within the integrated care division of Salford Care Organisation. Focussing on person centred approaches for better outcomes, improved service user experience and utilisina local resources to support people to live independently and with the highest possible quality of life.

Our Values

We have four core values which are a focus for how our staff and volunteers work with each other to provide care for our patients and service users. We think of our values as a set of guiding principles to refer to when making decisions and interacting with people and they help us to work together to continuously improve the organisation and ourselves.

These core values form part of the Organisations Performance Framework which regularly reviews how staff are performing.

Patient & People Focus

This value enables us to place the patient and service user first with everything we do.

All staff are required to demonstrate that they:

- Communicate effectively with patients, service users, families and colleagues
- Pro-actively personalise the service, connecting with patients and carers
- Adopt and practice the 'safe, clean, personal' ethos.

Continuous Improvement

This value ensures that the organisation including individual staff are always moving forwards and improving the ways things are done.

All staff are required to demonstrate that they:

- Look at ways of measuring and auditing improvements
- Pro-actively develop goals and objectives in support of the Trust's vision
- Identify opportunities to reduce waste and inefficiency.

Accountability

This value enables us all to recognise our own part in keeping our organisation 'safe, clean and personal' in the way we care for people.

All staff are required to demonstrate that they:

- Are transparent and results focused
- Display personal accountability towards problem-solving
- Recognise and accept accountability beyond job role.

Respect

This value is about respecting patients and colleagues alike, and also the ongoing reputation of the organisation.

All staff are required to demonstrate that they:

- Are supportive and empower staff involvement
- Are consistent and understanding of others and their needs

Job Description

Job Title: Highly Specialist Nurse Gastroenterology

- 8. To lead the appraisal process for themselves and others
- 9. To provide specialist gastroenterology education and training programmes to other staff and learners.
- 10. To provide specialist advice at a strategic level to develop specialist practice across professional and organisational boundaries e.g. regional/national working groups, informing national policy.
- 11. To diffuse challenging behaviour ,ensuring that the situation is managed in a sensitive way
- 12. To support/lead in the recruitment and selection process

- 13. To support/lead in the identification of future workforce requirements
- 14. To support/lead in disciplinary and grievance procedures if required

Responsibility for Information Resources

- 1. To accurately record all assessments and interventions in relevant documentation in line with Trust policy
- 2. To record and submit clinical and professional activity using manual and electronic means
- 3. To use relevant IT system(s) to accurately record activity within an agreed time frame.

Responsibilities for Research and Development

- 1. To identify and investigate poor quality and performance promptly, identify contributing factors and agree methods for addressing them.
- 2. To act as a role model ensuring own actions promote quality and identify and mange any risks.
- 3. To lead in the development of effective evaluation studies
- 4. To lead in the promotion and implementation of evidence based nursing care ensuring that good practice within SRFT is disseminated locally and nationally.
- 5. To lead in developing and conducting of audit and research projects in gastroenterology education as part of the multidisciplinary team.
- 6. To undertake and benchmark current clinical practice against national best practice to ensure clinically effective best value services for patients. This will be achieved through the review of evidence based best practice, audit, research and outcome measures and can be done individually or working across health professionals or organisational boundaries.
- 7. To initiate or undertake as directed the collection of data for use in service audit and research projects ;to participate in research into specific areas of clinical practice and service delivery using a range of methodologies as part of multidisciplinary audit and service research initiatives.
- 8. To contribute and adhere to the Trust Clinical Governance agenda.

Freedom to Act

- 1. The ability to form own clinical judgements working autonomously, often in isolation within professional guidelines and Trust policies.
- 2. Accountable for own professional actions undertaking all duties having regard to the NMC Code of Professional Conduct for the nurse, midwife and health visitor and their professional contribution to Clinical Governance.
- 3. To practice competently, you must possess the knowledge, skills and abilities required for lawful safe and effective practice without direct supervision. You must acknowledge the limits of your professional competence and only undertake practice and accept responsibilities for those activities in which you are competent (see Trust Competency Policy 2004). This includes the use of medical equipment.
- 4. Ability to self-manage, plan, adjust priorities to meet the dynamic demands of the gastroenterology service.

Partnership Working

- 1. To work collaboratively across agencies and organizational boundaries and ensure delivery of an integrated service through effective communication
- 2. To be involved in the development of the multidisciplinary district wide gastroenterology education strategy.
- 3. Supporting patients and their carer's, encouraging them to promote their own health and well- being and to express their interests and concerns.
- 4. To work as an integral part of the multidisciplinary gastroenterology team in order to achieve the objectives of the service.
- 5. To work alongside medical, nursing, social acre agencies and allied health care professional colleagues to ensure where possible that appropriate services are coordinated and combined, including joint assessment.
- 6. To promote patient and public involvement in the IBD.

Equality and Diversity

- 1. To promote and support equality and values diversity. This responsibility includes your actions in relation to service users, carers, work colleagues, people in other organisations and members of the public.
- 2. To carry out your duties in a way that supports equality and values diversity. This responsibility includes your actions in relation to service users, carers, work

colleagues, people in other organisations and members of the public.

Making Every Contact Count

Front line staff are in an ideal position to offer support and advice on how to improve health and wellbeing

Staff should use their interactions with the public to give them additional advice on health and wellbeing

Staff will be given training and support to help them to signpost people to other services which may improve their health and wellbeing.

Health & Safety

As well as the general duty of care, any specific responsibilities relating to staff or patients on health & safety and any hazards associated in the normal course of the role.

All people (including consultants) who manage others

You are accountable for the effective deployment of activities that ensure that your department/ward/clinical team is reducing hospital acquired infection. You will ensure that you and your staff comply with the Trust's policies on infection, prevention and control. You will ensure that you and your staff receive the training required to maintain competence to execute the Trusts policies on infection, prevention and control. You have a responsibility to bring deficiencies in the deployment of such policies to the attention of your line manager.

Safeguarding

The Trust is committed to safeguarding and promoting the welfare of children, young people and vulnerable adults and expects all staff and volunteers to share this commitment. You will be expected to fulfill your mandatory safeguarding training at the level applicable to this role.

Electronic Patient Record

Salford Royal uses an Electronic Patient Record (EPR). All Clinicians must use EPR as the primary patient record. It supports delivery of Safe, Clean and Personal patient care. Paper is used only for clinical record components (e.g. fluid charts) that do not at present have an EPR replacement.

The majority of clinical documentation is entered directly on the EPR including health

Saving lives, Improving lives

Salford Care Organisation

issues, case histories and continuation notes, condition specific structured records and risk assessments. EPR also provides systems for prescribing, requesting most tests and some services, and for viewing results, a local integrated record and correspondence.

Access to this comprehensive EPR is via a unique login and password. All Clinicians working at Salford Royal must receive EPR training.

Code of Conduct

Professional staff that have a national Code of Conduct are expected to adhere to that Code and failure to do so could result in disciplinary action being taken. Staff who do not have a regulatory body are expected to conduct themselves in a professional manner and in line with the Trust values and polices are all time.
