Hours:	18.75 hours (0.5 WTE)
Location:	Range available: Principal base in East and North Hertfordshire Principal base in West and South Hertfordshire
Business Unit:	Children's Specialist Service
Reporting to:	PALMS' Line Manager
Responsible for:	Crisis Team Mental Health Practitioners Identified members of PALMS' team

PALMS

PALMS (Positive behaviour, Autism, Learning disability, Mental health Service) works across Hertfordshire providing a specialist multi-disciplinary approach. PALMS is a CAMHS commissioned service which offers individually tailored support for children and young people (CYP), aged 0-18 who have a global learning disability and/or Autistic Spectrum Disorder, helping families to manage challenging behaviour, toileting, feeding and sleeping concerns which have not benefitted from community interventions and/or to support mental health needs which cannot be met with reasonable adjustment by other CAMHS services. Additionally, PALMS also supports problematic sexualised behaviours. Interventions include workshops, groups, individual therapy, and therapeutic work with parents/carers/siblings. PALMS aims to keep children and young people with their families within Hertfordshire thereby improving outcomes for all family members.

The current team in PALMS includes 42 members of staff including Administrators, Assistant PALMS Practitioners, Assistant Psychologists, Clinical Leads, Clinical Psychologists, Consultant Psychiatrists, Learning Disability Nurses, Outreach Workers, Mental Health Practitioners, Positive Behaviour Analysts and Speech and Language Therapists led by the Service Lead to provide a tailored approach to the PALMS' CYP and their families. PALMS principally deliver a flexible service between 7am and 7pm weekdays but also work outside these hours and offer weekend input. This is undertaken according to need in a planned way. For example, for a full-time worker this equates to

flexibly working 37.5 across the working week.

In addition to the core service offer, PALMS have been awarded additional funding to support CYP experiencing crisis.

The PALMS' Crisis Team

The PALMS' crisis team includes an Administrator, Clinical Psychologist, Consultant Psychiatrist, Outreach Workers, Mental Health Practitioners and a Specialist Positive Behaviour Analyst. This MDT work together and in collaboration with the wider PALMS' MDT to support CYP at significant risk of being placed out of county and/or requiring an inpatient bed. The team offer input to up to 350 CYP per annum by: triaging calls; undertaking risk assessments; supporting CYP/Parents/Carers in distress; liaising with the CYP's wider support network; managing immediate safeguarding; referring on to other providers/support services; and, undertaking urgent and immediate assessment of need. These elements of the service will be available Monday – Friday 8.30am – 6.30pm.

In addition, the crisis team provides an intensive package of support to up to 80 CYP per annum. The intensive package of support is tailored to the CYP and their family. The evidence highlights that these interventions require a minimum of 8 hours per week, and up to 15 hours per week from the team to reduce and manage the risks, enable full understanding of needs, support the presentation, and prevent escalation. This will involve family and individual sessions, observations and PBS support which could include group support for families in crisis.

In addition to the above service PALMS also hosts a Mental Health Support Team for SEN Schools across Hertfordshire and West Essex.

The SEN MHST

The MHST delivers evidence based interventions supporting emotional wellbeing, primarily in an educational setting. This includes group interventions, individual interventions, consultation and training and incorporates full assessments of care needs and risk assessments. The ultimate aim of the MHST is to support a whole school approach to develop, build and support emotional well-being.

The SEN MHST is hosted by PALMS and is the only MHST nationally that is solely working with the SEN population. PALMS therefore are active in supporting the National Team regarding the training, skills, job roles, models and approaches required of MHSTs to support the population. The service is principally available Monday to Friday 8.30am – 6pm.

COVID-19 Pandemic

In response to the COVID-19 pandemic, as a mental health service, PALMS are classed as a service that continues to run and also to offer enhanced services as required. In line with government and NHS guidance, the predominant method of delivery of service is currently via video or telephone. Face to face appointments are still offered when deemed clinically necessary and in ensuring all guidance is adhered to.

JOB PURPOSE

- To support in making a difference to CYP and their families by working in partnership and to support them in achieving positive outcomes.
- To provide a highly specialist clinical psychology community service to CYP with learning disabilities and/or an autistic spectrum disorder who present at times of crisis with challenging behaviour, toileting, feeding, sleeping concerns, and problematic sexualized behaviour, and/or mental health difficulties, and to their families across all sectors of care.
- To establish effective working relationships with care providers on the CYP's pathway including the CAMHS Crisis Assessment and Treatment Team (C-CATT), Child & Adolescent Mental Health Services, Child Development Centres, Social Care and Education.

- To provide a comprehensive screening and triage service to CYP and their referrers resulting in safe and appropriate clinical decisions and appropriate intervention.
- To undertake priority assessments, related to difficulties within the PALMS' remit, to determine the needs of the CYP, including whether it is safe for them to return to their home.
- To undertake assessments and interventions in a variety of settings, often in A&E and family homes, involving liaison and joint assessments with other agencies including C-CATT and Social Care Children's Services.
- To function as an effective member of the multi-disciplinary PALMS Crisis team and PALMS team and to work as an autonomous PALMS' clinician providing specialist, holistic and generic assessment and intervention, when appropriate, with CYP and families.
- To provide Clinical Psychology leadership and act as a senior professional and provide clinical and line management supervision to members of the PALMS team as appropriate.
- To exercise responsibility for the systematic governance for the post holder's professional practice within the service.
- To undertake clinically related administration.
- To actively contribute to the development of the service particularly evaluating the needs of the PALMS' population when experiencing crisis.

MAIN DUTIES AND RESPONSIBILITIES

Operational Delivery and CYP Clinical Care:

- To provide a comprehensive screening and triage service to CYP and their referrers resulting in safe and appropriate clinical decisions and appropriate intervention.
- Timely and effective triaging of all referrals adhering to the service specification, pathways and protocols to support clinical decisions.
- To be the first clinical point of contact for referrers and the families who access, or enquire about accessing PALMS following agreed protocols and guidelines and utilising effective communication skills. The calls can include assessing risk and the priority of the referral.
- Ensure that sufficient, accurate and appropriate information is gathered in order to direct the referral to the most appropriate pathway.
- Use professional judgement and skills to assess level of need and urgency, as well as obtaining further information as required, determining appropriate outcome including monitoring and recording expected outcomes. Agreed pathways and protocols will be used to support clinical decisions.
- To be a point of contact for team members to discuss clinical queries that cannot wait until supervision or peer reflection.
- To undertake priority assessments, related to difficulties within the PALMS' remit, to determine the needs of the CYP, including whether it is safe for them to return to their home.
- To undertake priority assessments in a range of settings including home, school, at A&E, in police custody or other settings often with colleagues from C-CATT, Assessment and Treatment Team and/or Children's Services in accordance with necessary timescales.
- To undertake risk assessment and risk management for CYP and to provide advice to other professionals on aspects of risk assessment and risk management.
- To implement agreed aspects of the risk assessment plans in conjunction with PALMS' colleagues, CYP and their families.
- To contribute to multi-disciplinary risk assessments, taking into account safeguarding concerns.
- To provide highly developed specialist psychological assessments of CYP referred to the PALMS Crisis Team based upon appropriate use, interpretation and integration of complex data from a variety of sources including semi-structured interviews with CYP, family members and others involved in the CYP's care, self-reports measures, rating scales and direct & indirect structured observations
- To formulate and implement plans for the formal intervention and/or management of CYP presenting difficulties, including challenging behaviours, toileting, feeding, sleeping concerns, problematic sexualized behaviour, and/or mental health difficulties; based upon an appropriate

conceptual framework of the CYP's needs and employing methods based upon evidence of efficacy, across the full range of care settings.

- To be responsible for a complex caseload whilst working alongside a multi-disciplinary team to provide a coordinated and integrated individualised care package to children and young people.
- To be responsible for implementing a range of psychological interventions for individual children and young people, carers, families and groups, employed individually and in synthesis, co- working with other team members/disciplines as appropriate, adjusting and refining psychological formulation drawing upon different models and maintaining a number of provisional hypotheses.
- To provide specialist psychological advice, guidance and consultation to others.
- To be able to assess and develop plans of care to meet the complex needs of the PALMS' population.
- To prepare assessments, intervention/review reports and discharge summaries, in accordance with local policies.
- To act as care coordinator, where appropriate, ensuring provision of a care package appropriate for the CYP's needs, taking responsibility for initiating , planning and review of the CYP's care, including the CYP, their family/carer, referring agents and others involved in the network of care.
- To evaluate and make decisions about treatment options taking into account both theoretical and therapeutic models and highly complex factors concerning historical and development processes that have shaped the individual, family or family group.
- To exercise autonomous professional responsibility for the intervention and discharge of CYP ensuring appropriate assessment, formulation and interventions, communicating with referrers and others involved with the care on a regular basis.
- To oversee transition arrangements between services to ensure CYP receive seamless care with the support of the clinical leads, transition arrangements between services via Hertfordshire's Trusted Assessment and Integration Working Pathways, to ensure CYP receive seamless care.
- To plan and to lead workshops and therapeutic groups with CYP and families.
- To provide psychological advice and guidance to other members of the multi- disciplinary team through team meetings, supervision and training.
- To take into account issues of parental responsibility when undertaking assessment/consultation/intervention with CYP.

Communication and Relationship Building

- The post holder will be required to establish communication networks with a wide and cross organisational group of professionals, associated agencies and CYP and families.
- In particular the post holder shall develop effective and mutually respectful relationship with: C-CATT, police, members of the multidisciplinary child development team (paediatricians, school nurses, health visitors, allied health professionals and associated disciplines); associated agencies responsible for a CYP's care i.e. health, education, social care, voluntary sector; members of the Child and Adolescent Mental Health Services (CAMHS) and adult learning disability service for transition planning.
- To communicate in skilled and sensitive manner information concerning the assessment, formulation and treatment plans of CYP under their care.
- To offer consultation and training to a range of services particularly C-CATT to support the needs of CYP who have Autism and/or Learning Disability.
- To provide specialist psychological advice, guidance and consultation to other professionals contributing directly to the formulation, diagnosis and treatment plan.
- To represent the PALMS' Crisis Team and attend relevant meetings and professional activities.

Education and Training

- To contribute to the development and maintenance of the highest professional standards of practice, through active participation in internal and external continuing professional development training and development programmes, in consultation with the PALMS Clinical and Service Leads.
- To take part in regular professional and managerial supervision and appraisal, and maintain an active engagement with current developments in the field of the post holder and related disciplines.
- To maintain up to date knowledge of legislation, national and local policies and issues in relation to both the specific population and mental health.
- To participate fully in multidisciplinary team meeting and activities as appropriate.
- To participate in teaching/training and other continuing professional development activities.
- Post holder should assess, in discussion with their line-manager, their own professional training needs.

Service Development and Improvement

- To assist in the design and implementation of service development projects as required.
- To actively contribute to the development of the service particularly evaluating the needs of the PALMS' population when experiencing crisis.
- To attend meetings in which service developments are planned and discussed.
- To propose and implement policies/guidelines within the service in conjunction with PALMS Clinical and Service Leads.
- To alert the Service Lead on aspects of the service where clinical and/or organisational matters need addressing.
- To contribute to the development, evaluation and monitoring of the team's operational policies and participate in the development of high quality, responsive and accessible services.
- To authorise risk assessments for lone workers.
- To utilise theory, evidenced based literature and research to support evidence based practice in individual work and work with other team members.
- To work with the PALMS' Leadership team on service policy development and review.
- To make informed contributions on local and divisional policy affecting service development.
- To contribute to the development, evaluation and monitoring of the team's operational policies and participate in the development of high quality, responsive and accessible services.
- To undertake data collection, analysis, production of reports and summaries using IT and statistical programmes where required.

Management and Leadership

- To be responsible for providing clinical supervision and professional support and guidance as required to members of the PALMS' team.
- To line manage members of the PALMS' team.
- To provide psychological advice, consultation and training to staff working with the client group across a range of agencies and settings, where appropriate.
- To participate in recruitment of new staff as required

Information Management

- To maintain the highest standards of clinical record keeping including electronic data entry and recording, report writing and the responsible exercise of professional self-governance in accordance with professional codes of practice and Trust policies and procedures.
- To update PALMS databases and/or spreadsheets as appropriate in order to monitor clinical outcomes.

Finance and Resource Management

- Responsible to Service Lead for effective and efficient use of available resources.
- Responsible to Service Lead for identification of resource issues affecting service delivery.

Research and Development

- To utilise theory, evidenced based literature and research to support evidence based practice in individual work and work with other team members.
- To undertake appropriate research and provide research advice to other staff undertaking research,
- To undertake project management, including audit and service evaluation, with colleagues within the service to help develop service provision.

General:

- To undertake specific administrative duties as required.
- To perform other duties of a similar kind appropriate to the grade, that may be required from time to time by the PALMS' Service Lead.
- To work flexibly and respond positively to changing service needs.

Freedom to Act

- To exercise autonomous professional responsibility for the treatment and discharge of CYP ensuring appropriate assessment, formulation and interventions, communicating with referrers and others involved with the care on a regular basis.

EFFORT, PHYSICAL SKILLS and WORKING CONDITIONS:

Physical effort	The post-holder will be required to travel across county for their role and therefore the post-holder should have access to & be licensed to drive an appropriate mode of transport
Mental effort	The post-holder will be required to plan and organise complex activities requiring formulation, action planning and strategic thinking. The post-holder will be required to exercise judgement when presented with highly complex facts requiring an analysis and interpretation. The post-holder will be required to contain and work with organisational stress and ability to “hold” the stress of others. The post-holder will be required to maintain intense concentration whilst engaged with CYP and CYP’s family.

Emotional effort	The post- holder will experience working with CYP presenting with the full range of clinical severity and will need to exercise a high degree of professionalism in the face of highly emotive and distressing concerns, verbal abuse and the threat of physical abuse. The post-holder will be required to work with young people whose behaviour is personally challenging and deal with frequent exposure to highly distressing or highly emotional circumstances.
Working conditions	The post-holder will work in a shared office and at times be exposed to aggressive behaviour due to the nature of the CYP that PALMS work with.

Supplementary Information:

Equality and Diversity

The Trust is committed to eliminate racism, sexism and forms of discrimination. The Trust will not discriminate on grounds of age, colour, disability, ethnic origin, gender, gender reassignment, culture, health status, marital status, social or economic status, nationality or national origins, race, religious beliefs, or non beliefs, responsibility for dependents, sexuality, trade union membership or hours of work.

It is required of all employees to uphold this policy in the course of their employment with the Trust and whilst undertaking their duties.

Mobility / Flexibility

The normal place of work for the post is as stated above, but as a term of employment post holders may be required to work from any of the Trust's establishments.

Health and Safety at Work

In accordance with the Management of Health and Safety at Work Regulations 1992 (as amended) and other relevant Health and Safety legislation, staff have a duty to take responsible care to avoid injury to themselves and others by their work activities and to co-operate in meeting statutory requirements.

Infection Control

Employees must be aware that preventing healthcare acquired infections and infection control is the responsibility of all staff. Clinical procedures should be carried out in a safe manner by following best practice and infection control policies.

Data Protection and Confidentiality

Employees must maintain confidentiality when dealing with sensitive material and information and be aware of the Caldicott principles, the General Data Protection Regulations (GDPR) 2018 and the Human Rights Act 1998. The protection of data about individuals is a requirement of the law and if any employee is found to have permitted unauthorised disclosure, the Trust and individual may be prosecuted. Disciplinary action will be taken for any breach.

No Smoking Policy

The Trust operates a smoke free policy which means that smoking is not allowed anywhere on Trust sites including buildings, car parks and entrances.

Safeguarding

Post holders have a general responsibility for safeguarding children and vulnerable adults in the course of their daily duties and for ensuring that they are aware of the specific duties relating to their role. The expectation is that the post holder is familiar with the relevant procedures and guidelines, all of which can be found on the Trust's intranet.

The above duties and responsibilities are intended to represent current priorities and are not meant to be an exhaustive list. The post holder may from time to time be asked to undertake other duties and responsibilities commensurate with the grade. Any changes to this job description to take account of changing service needs will be made in discussion with the post holder.

Positive behaviour, Autism, Learning disability, Mental health Service
