

## Senior Clinical Fellow, Trust Registrar in Haematology

Due to an investment in our junior medical staffing and a maternity leave locum University hospitals Dorset are delighted to advertise 4 senior clinical fellow/ Trust Haematology Registrar posts. These posts will have exposure to busy haematology inpatient wards and chemotherapy day units.

At UHD we treat a full range of haematological malignancies including acute Leukaemia and are JACIE accredited autologous stem cell transplant units. The post holders will be able to gain haematology experience of managing both in and outpatients and will also undertake on calls. They will be required to work with other grades of staff, and help out with ward rounds, admitting patients and clinics in malignant and non-malignant haematology.

The Haematology department at UHD is staffed with 16 Haematology Consultants. See table below.

Sub specialty	
Dr Rachel Hall	Myeloma, Lymphoma, transplant unit collections facilities director
Dr Joe Chacko	Myeloid disorders, Lymphoma, MPN
Dr Helen McCarthy	Myeloma, Lymphoma, CLL
Dr Renata Walewska	Lymphoma, CLL
Dr David Allotey	Myeloma, myeloid, MPN, transplant unit programme director
Dr Mohamed Hamid	Myeloma, myeloid, MPN
Dr Catherine Hockings	Myeloid, MPN
Dr Jason Mainwaring	Thrombosis, bleeding disorders
Dr Ram Jayaprakash	Lymphoma, CLL
Dr David Bruce	Lymphoma, CLL
Dr Louise Fraser	Myeloma
Dr Darshayani Furby	Myeloid, MPN, obstetric haematology
Dr Rebecca Maddams	Myeloma
Dr Luke Attwell	Thrombosis, Bleeding disorders

As well as junior Trust and training program SHO's, the post will be supported by Wessex Deanery specialist training registrar's, clinical nurse specialists, ANPs and Physicians Associates.

The post will provide a wide range of training opportunities including laboratory haematology (including participation in regional HMDS), haemostasis, obstetrical haematology, haemato-oncology (myeloma, lymphoid and myeloid) All the senior clinical fellows would have an educational supervisor and access to the regional and local teaching programs. It would be envisaged that successful applicants would complete a quality improvement project or audit and the opportunity to present these at a regional level.

## **TRANSFORMING HOSPITAL SERVICES IN DORSET**

This is a very exciting time to join University Hospitals Dorset NHS Foundation Trust as we are transforming our services and redeveloping our hospitals in Bournemouth, Christchurch and Poole. This follows the merger of Poole Hospital NHS Foundation Trust and The Royal Bournemouth and Christchurch Hospitals NHS Foundation Trust in October 2020. We are working in alignment with our partners in the Our Dorset Integrated Care System (ICS), which will see over £400m investment in local services across Dorset.

## **UNIVERSITY HOSPITAL STATUS**

University Hospitals Dorset NHS Foundation Trust received university hospital status in 2020 in recognition of the depth of research, education and practice that exists between UHD and Bournemouth University. Both organisations are committed to helping people live better, for longer, with UHD actively engaged in supporting the learning of BU students through a series of clinical placements for nursing, midwifery and students on allied health courses. In addition, a number of research projects are taking place in fields such as orthopaedics and medical imaging, while BU also provides training and professional development opportunities for UHD staff. Drawing on this collective expertise creates opportunities for students and university and hospital staff and promotes better patient outcomes.

## **CLINICAL SERVICES REVIEW**

Bournemouth Hospital will be the major emergency care hospital for east Dorset, with Poole Hospital becoming the major planned care hospital. This entails a substantial capital development programme with a review and design process for those services affected.

Christchurch Hospital will continue to act as a community hub with a new in-patient palliative care unit and an enhanced range of outpatient services.

The scale of the changes is huge and will take at least five years to implement, including:

- £201m investment in new hospital services in east Dorset
- New emergency department and critical care unit at Royal Bournemouth Hospital (RBH)
- Major redevelopment of operating theatres at Poole Hospital, including a new extension incorporating eight new theatres plus internal refurbishment work
- A new purpose-built women's and children's unit at RBH

- Innovative new community hub at Poole Hospital
- New community hospital beds at RBH and relocation of some services to Christchurch Hospital and community localities

Our vision is to join up our services so they can be delivered in a more integrated way, improving outcomes for patients, make better use of all our resources, and ensuring that services can be provided on a sustainable basis.

Our aim is to develop our workforce, establishing modern, well-equipped centres of excellence, with standardisation of education and training that attracts and retains skilled clinical and non-clinical staff to Dorset.

## **Further information about our hospitals and services**

### **ROYAL BOURNEMOUTH HOSPITAL**

RBH is located on the south coast, close to the New Forest in the east and the Jurassic coastline in the west. This is a major tourist area and during the summer months over one million holidaymakers visit Bournemouth including substantial numbers of foreign language students. The fluctuating population, three time's greater growth than the average for England and Wales, and the high proportion of elderly present special issues for health care.

On this site are specialised services including the **Dorset Heart Centre**, a first class specialised adult cardiac services for a population of one million, including much of Dorset and parts of Wiltshire and Hampshire as well as general cardiology for the local population, **elective orthopaedics**, one of the largest hip and knee replacement centres in Europe, focusing exclusively on elective surgery, providing high quality comprehensive care for patients with painful bone and joint conditions. Our **Eye Unit**, a purpose built unit, with eye theatres, outpatient department, a one stop cataract clinic and glaucoma clinics, as well as urgent or emergency treatment.

**Interventional radiology**, is well equipped, with CT / MRI suite (four scanners) two dedicated digital imaging labs for interventional radiology and state of the art PACs implementation. There is also a busy imaging service located at Christchurch hospital. The Jigsaw Building, officially opened by Her Royal Highness, The Princess Royal in 2016, houses a multi -million pound centre with facilities for the treatment of cancer and blood disorders, and a Women's Health Unit on the first floor. There is a 24 hour Emergency Department with over 99,000 attendances annually – facilities include an upgraded emergency helicopter landing area.

As Royal Bournemouth Hospital becomes the **major emergency care centre** for east Dorset, we are building a new centre in front of the hospital which will house:

- The new Emergency Department will be larger than both the existing Emergency Departments at Poole and Royal Bournemouth put together.
- The new Maternity Unit will be a brand-new purpose-built department. The delivery ward will have 16 birthing rooms in total, including seven rooms with pools, four standard rooms, two rooms for twin births, one higher dependency room and two specialist bereavement rooms. There will also be two obstetric theatres
- The Children's Unit will include two higher dependency beds, an assessment unit and an adolescent area. Being close to the Neonatal and Maternity Unit enables

faster patient response times and better cohesion of the team as they are consolidated in one area.

## **POOLE HOSPITAL**

The hospital provides a wide range of acute services to people in Poole, east Dorset and Purbeck with over 600 beds, including 74 for day cases and serves as the major trauma centre for east Dorset. The hospital was built in 1970 and all the principal specialties are represented including **medical, elderly, surgical and child health emergency admissions to include general surgery, trauma, ENT, oral and maxillofacial surgery, obstetrics, gynaecology, paediatrics, general medicine, neurology, rheumatology and dermatology**. As the designated Cancer Centre for Dorset, the Trust provides cancer services for the whole of Dorset.

Poole Hospital is significantly expanding their operating theatre complex and day-case facilities, and opening 72 community beds. This will help reduce waiting times and prevent cancelled operations for patients requiring planned care. The hospital received planning permission in 2019 for five new operating theatres at the hospital to improve the existing theatres.

Poole Hospital will become the **major planned care centre** for east Dorset with a major redevelopment, including a new extension incorporating eight new theatres plus internal refurbishment work. This will lead to:

- fewer cancellations due to emergency admissions
- a systemic and predictable workflow with less delays
- increased patient safety through reduced variation
- a clear and sustainable pathway for patients
- getting patients to the right place first time/at the right time

The hospital will also have an expanded 24/7 Urgent Treatment Centre (UTC) treating around 60,000 patients a year.

## **CHRISTCHURCH HOSPITAL**

Two miles from the Royal Bournemouth Hospital, Christchurch Hospital is set in attractive grounds, which are listed as a conservation area, providing a pleasant environment for rehabilitation and a range of outpatient services. An all-age rehabilitation service has been developed, particularly in the award-winning Day Hospital. Most patients are elderly, reflecting the local population. There is an excellent infrastructure to support rehabilitation with superb physiotherapy and occupational therapy facilities. Outpatient clinics have expanded over recent years and include gastroenterology, breast, oncology, plastic surgery, ophthalmology, podiatry and medicine for the elderly. Dermatology and rheumatology outpatient services are also provided at Christchurch Hospital together with diagnostic services and palliative care (the Macmillan Unit).

The hospital has completed a multi-million pound investment which will secure NHS services on site and ensure the hospital remains a key part of the community for years to come. Many patient services have been improved, a new entrance and X-ray Department has been built and a new GP surgery, a pharmacy and community clinics have been opened. A quality nursing home and senior living accommodation have also opened on site as part of the

project. There are now plans to redevelop the site further, including replacing the palliative care Macmillan Unit, and creating a senior living facility.

## **MAIN CONDITIONS OF SERVICE**

Registration with the General Medical Council and license to practice or eligibility for registration is necessary for this post.

This post is covered by the Trust's Terms and Conditions of Service of for Trust Appointed (Non-Training) Doctors as amended from time to time.

**ANNUAL LEAVE** Applications for annual leave should be made at least 8 weeks in advance.

## **STUDY AND TRAINING**

Attendance at the Induction programme, which will be arranged during the first week of the appointment in protected time, **is a requirement**.

Each department has their own educational meetings and support to perform audit. In addition there is a weekly general radiology meeting on Monday, medical grand round on Friday and core curriculum education for Foundation Doctors and SHOs. The Royal Bournemouth Hospital has an excellent reputation for training with a high success rate at passing PACES for MRCP.

The main libraries are in the Postgraduate Medical Centres at Royal Bournemouth and Poole Hospitals. Both are professionally staffed and provide comprehensive reference, lending and inter-library facilities. Computer-aided literature searches are available. The Postgraduate Medical Centre (RBH) has a very active education programme with the recent addition of a Clinical Skills teaching facility. There are regular weekly lectures, journal clubs, fortnightly SHO Core Curriculum and weekly Physicians Grand Round which supports the excellent specialty training programmes held departmentally.

## **TRUST APPOINTMENTS**

The post is Trust funded and does not have Postgraduate educational approval or College recognition. However, the post holder will be encouraged to attend a wide range of educational meetings at lunchtimes throughout the week, and clinical experience will be gained from the Department's own educational programme. The post holder will also be encouraged to attend appropriate educational courses.

## **EMERGENCIES**

The Trust Doctor accepts that he/she will also perform duties to cover occasional emergencies and unforeseen circumstances at the request of the appropriate Consultant in consultation where practicable, with his/her colleagues both junior and senior. It has been agreed between the professions and the Department that while the juniors accept that they will perform such duties, the Secretary of State stresses that additional commitments arising under this sub-section are exceptional and in particular that juniors should not be required to undertake work of this kind for prolonged periods or on a regular basis.

## **OTHER FACILITIES**

The library is professionally staffed and there are comprehensive reference, lending and inter-library facilities. Computer aided literature searches are available. The library is

available around the clock by means of a key available from the porters lodge. There are similar facilities at Poole Hospital and there is a specialised library in the Cardiac Department. The Postgraduate Medical Centre has a very active education programme to which the medical staff make a major contribution. There are regular weekly lectures, journal clubs, fortnightly SHO Core Curriculum and weekly Physicians Grand Round which supports the excellent specialty training programmes held departmentally. The library is professionally staffed. There are comprehensive reference, lending and inter-library facilities. Computer aided literature searches are available. The library is available around the clock by means of a key available from the porters lodge. There are similar facilities at Poole Hospital. There is a specialised library in the Cardiac Department.

**Other on site facilities include:**

- Day Nursery
- Doctors' Mess (with IT facilities)
- IT Learning Centre
- Auto-bank
- Staff Car Park (subject to charge & availability)

Bournemouth and the surrounding area is renowned as being one of the premier resorts in the country for coastal living due to its miles of unspoilt beaches, Poole Bay which is the world's second largest natural harbour and the close proximity to the spectacular world heritage Jurassic coastline. Areas surrounding Bournemouth are Poole, the ancient riverside town of Christchurch and also the Isle of Purbeck offering many areas of natural beauty. There are many recreational and leisure facilities offered by the surrounding countryside areas including the New Forest which has recently been awarded National Park status. Both Bournemouth and Poole have a choice of theatres, cinemas and concert halls, including the Bournemouth International Centre and The Lighthouse Theatre which is the home of the Bournemouth Symphony Orchestra. There are a large number of excellent shopping areas nearby as well as numerous restaurants and pubs, both in town and the countryside. A wide variety of sporting and leisure activities are offered among them facilities for golf, tennis, sailing and most waters ports. As well as this there many areas to walk, cycle or go riding. There are two leisure complexes adjacent to the hospital and they offer facilities such as indoor swimming pools, gym/fitness room, squash courts etc. Bournemouth has its own University as well as a number of college sites and further education sites and there are many excellent schools in the area. The travel time by rail to London (Waterloo) is approximately 1 hour 40 minutes and by road (M27, M3) approximately two hours. Bournemouth has its own airport (just expanded) with an ever increasing number of both domestic and international flights.

**DBS/DISCLOSURE and BARRING SERVICE (CRB)**

As part of our recruitment procedure this post will be subject to a Criminal Record Disclosure. A Disclosure is a document containing information held by the police and government departments. Disclosures provide details of a person's criminal record including convictions, cautions, reprimands and warnings held on the Police National Computer. Where the position involves working with children, Disclosures will also contain details from lists held by the Department of Health (DoH) and the Department for Education and Skills (DfES) of those considered unsuitable for this type of work.

**REHABILITATION OF OFFENDERS**

This post is exempt from the provisions of Section 4(2) of the Rehabilitation of Offenders Act (Exceptions Order) 1975.

Applicants are, therefore, not entitled to withhold information about convictions and, in the event of employment, any failure to disclose such convictions could result in dismissal or disciplinary action by the Trust. Any information given will be completely confidential and will be considered only in relation to an application for positions to which the exemption order is applied.

### **MEDICAL CLEARANCE**

The appointee will be required to complete a health assessment form and may be required to undergo a health assessment.

### **ACCOMMODATION**

A single room may be provided in the Hospital for which a charge will be made. Married accommodation is limited so early notification of your requirements is advised. Married accommodation is subject to a tenancy agreement and a charge will be made.

### **HEALTH and SAFETY**

Everybody within the Trust has a legal responsibility for the health, safety and welfare of themselves and others at work. These duties are set out within the Health and Safety at Work etc. Act (HASAWA) 1974, the Management of Health and Safety at Work Regulations (MHSAWR) 1999, and in other relevant regulations and guidance notes.

#### **All Staff**

In accordance with HASAWA and the Trust Health & Safety policy, all staff have legal responsibilities;

- to take reasonable care for themselves and others that may be affected by their acts/ omissions
- to co-operate with their manager/ supervisor to enable them to carry out their legal duties e.g.
  - shall report all hazards and defects to their line manager/ supervisor
  - shall report all accidents, incidents, near-miss events to their manager/ supervisor and via an adverse incident report (AIR) form (Trust policy)
- to use all work equipment, materials and substances in accordance with any training and instruction provided (e.g. medical devices, chemicals, mechanical aids, machinery, plants, vehicles, and personal protective equipment)
- to ensure they attend all annual mandatory training and attend health and safety training as required for the post.
- to comply with trust and department health, safety & risk policies and procedures
- not to interfere with or misuse anything provided to secure health and safety .e.g. wedge fire doors open, remove first aid equipment, break locks off systems

### **SMOKING**

The Trust has a responsibility to provide a safe and healthy environment for everyone who is working, visiting or living on hospital premises. Smoking is NOT allowed on site except for within the designated smoking areas and shelters for staff and patients.

The Trust will not tolerate smoking in undesignated areas and there is a zero tolerance approach to all staff who continue to do so. We will continue to provide support to staff, patients and visitors who want to give up smoking.

In the interests of promoting responsible healthcare all staff should refrain from smoking when off-site in uniform or wearing an identifying NHS badge in any public place.

## **INFECTION PREVENTION AND CONTROL**

The prevention and appropriate management of infection is of paramount importance in the quality and safety of the care of patients, and to the safety of visitors and members of staff. It is the responsibility of all staff to be aware of, assess and minimise these risks and comply fully with Infection Prevention and Control Policies.

The Health Act 2008 establishes a Code of Practice for the Prevention and Control of Health Care Associated Infections. It sets out criteria by which NHS managers ensure that patients are cared for in a clean environment, with a safe water supply, where the risk of Healthcare Associated Infections (HCAI) is kept as low as possible.

**Managers, Heads of departments and Clinical Leaders are responsible for ensuring that:** In accordance with the Trust's Risk Assessment policy and Risk management strategy, all managers/heads of department and Clinical Leaders are responsible for ensuring that they and their staff comply with all Trust and department health and safety policies and procedures.

**Managers, Heads of departments and Clinical Leaders** are responsible for ensuring that:

- The necessary equipment and mechanisms are in place to support infection prevention
- health care workers are free of and are protected from exposure to communicable infections during the course of their work, and that all staff are suitably educated in the prevention and control of HCAI

## **DATA PROTECTION**

All staff are required to comply with the Data Protection Act and the Trust's Data Protection Policy. Staff are responsible for ensuring that any personal data which they hold is kept securely; that personal information is not disclosed either orally or in writing to any unauthorised third party; that personal data is only accessed where there is a legitimate business need and only where such processing is consistent with the purposes for which the data was collected.

## **EQUALITY and DIVERSITY**

The Trust is positively committed to the promotion and management of diversity and equality of opportunity. Equality and diversity is related to the actions and responsibilities of everyone – users of services including patients, clients and carers; work colleagues; employees; people in other organisations; the public in general.

All employees have a responsibility to ensure that they act in ways that support equality and value diversity and must comply with the responsibilities placed upon them by employment legislation and the equality duties.

## **CARBON SUSTAINABILITY**

The Trust is committed to continual improvement in minimising the impact of its activities on the environment and expects all members of staff to play their part in achieving this goal and in particular to work towards a 10% carbon reduction by 2016.

*This post is subject to the policies, procedures and rules approved by the Trust and as varied from time to time. All staff are required to familiarise themselves with, and comply with the Trust's policies, procedures, rules or statements of practice. These can be accessed through the Intranet, your Department Manager, or through Human Resources.*
