

B6 Charge Nurse, Secure Services

Are you enthusiastic?

Are you able to deliver high quality nursing care?

Can you demonstrate excellent leadership skills at both team and service level?

Are you keen to develop your skills and CV further?

Are you are passionate about providing high quality care as part of a skilled multi-disciplinary team?

We are looking for experienced staff that are motivated to;

- Be part of new developments, and be at the forefront of planning, implementing and evaluating quality improvement plans
- To help us take these services to the fore in the field of forensic services!

Secure services are currently working hard to develop and improve our services and we require outward thinking and innovative approaches from our staff whilst remaining committed to maintaining safety and security.

We are currently recruiting for B6 RMN's/RNLD's.

We believe in recovery and hope and we want all of our service users in our service to reach their potential and to live fulfilling lives.

We strive to provide Service User centred care whilst fostering hope, empowerment and choice. This is an exciting challenge in a secure setting that's calling for outward thinking and innovative approaches from our staff.

Basic Information

Fromside and Wickham provide both short term and longer term care and we have an ethos of recovery, and service user and carer involvement.

We have a service for women and a range of wards for men, supporting those who are acutely unwell through to those preparing for discharge.

People returning to life in the community are supported by our community nurses who work alongside mainstream community mental health services

The wards work closely together to provide optimum care pathways for our service users and as such there is plenty of opportunity to develop a wide range and breadth of skills and knowledge, with the opportunity to rotate

between the wards.

Our specialist forensic secure service also covers a wider catchment area covering the whole of the South West and is part of the South West Provider Collaborative.

We, as a Trust, believe in building a workforce which is valued and whose diversity reflects the communities it serves, enabling it to deliver the best possible healthcare service to those we help in all of the communities that we help.

Secure Services is based in Fishponds, just 3 miles from the busy city centre of Bristol, which is renowned for its high quality eateries and exciting night life, but whilst still being within reach of scenic countryside.

Fishponds is well served by local bus services and has an extensive cycle route network.

If you are interested in working in a compassionate and inventive way and supporting the existing teams in further developments this could be the post for you. Or if you are curious and want to know more please get in touch and come and meet one of the team!
