	Dimensions						

- Work across Early Intervention base (County & City)
- Direct work with Service Users and their supporters
- Advising individuals and teams.
- Working as part of the extended EIS MDT
- Work as part of the senior Clinical Leadership Team

Safeguarding

All employees are responsible for taking all reasonable measures to ensure that the risks of harm to children and vulnerable adults are minimise. They should take all appropriate actions to address concerns, working to agreed local policies and procedures including the guidance on Safeguarding, in partnership with other relevant agencies. This includes accessing appropriate training, advice, and support. A focus on the 'Think Family' approach and support to embed this practice in the early Intervention Service

Disclosure and Barring Services

Where this post relates to the types of work, activity, employment or profession as set out in The Exceptions Order made under the Rehabilitation of Offender Act 1974; the post will be subject to a DBS Disclosure check at the point of recruitment and thereafter, as the Trust determines appropriate. The level of the check will be determined by the type of activities undertaken and the level of contact the post holder will have with children and/or adults in receipt of health services.

Infection Control

All employees of Nottinghamshire Healthcare NHS Foundation Trust have an individual responsibility to have knowledge of and employ the basic principles of infection prevention and control practice. All employees must comply with infection prevention and control mandatory training requirements specific to their role.

Equality and Diversity

All staff should be able to demonstrate an understanding of and commitment to Equality, Diversity and Inclusion as identified within the Trust's Equality and Diversity Policy and associated Equality, Diversity and Human Rights legislation.

Sustainability

It is the responsibility of all staff to minimise the Trust's environmental impact wherever possible. This will include recycling, switching off lights, computers, monitors and equipment when not in use. Helping to reduce paper waste by minimising printing/copying and reducing water usage, reporting faults and heating/cooling concerns promptly and minimising travel. Where the role includes the ordering and use of supplies or equipment the post holder will consider the environmental impact of purchases.

Data Quality Statement

All staff of Nottinghamshire Healthcare NHS Foundation Trust have a responsibility for data quality, improved data quality leads to better decision-making across the Trust. The more high-quality data, the more confidence the organisation has in decisions. Good data decreases risk and can result in consistent improvements in results. Employees within data roles have a responsibility for inputting high quality data (accurate, valid, timely, complete) and for ensuring that high quality data is maintained.

Communication

- Well-developed skills in the ability to communicate effectively, orally and in writing, highly technical, and clinically sensitive information to patients, their supporters and other professional colleagues both within and outside the NHS.
- •
- Ability to develop and use complex multi-media materials for presentations in public, professional and academic settings.
