

**Consultant Interventional Cardiologist (10 PA)**  
**Norfolk and Norwich University Hospitals NHS Foundation Trust and**  
**James Paget University Hospitals NHS Foundation Trust**

The Norfolk and Norwich University NHS Foundation Trust (NNUH) and the James Paget University Hospital NHS Foundation Trust (JPUH) are seeking to appoint a substantive Consultant Interventional Cardiologist to support the provision of interventional cardiology services to a large catchment population, including on-call for primary PCI.

You will be joining seven existing interventional consultants. We have recently expanded to five cath labs and a programme of refurbishment is currently underway.

The appointee will be expected to contribute to the delivery of elective and emergency PCI services, including cardiology on-call at NNUH (1:8 primary PCI on call rota). The post holder will spend two days at JPUH providing outpatient clinics, undertaking ward rounds on the Acute Cardiology Unit and supporting the investigational cardiology department.

NNUH is a 1,200 bedded multidisciplinary teaching hospital with the full range of medical, surgical, obstetric and diagnostic services on site. The cardiology department includes 23 consultants with specialist interests including adult congenital heart disease, coronary disease and intervention, cardiac rhythm management, cardiac MRI, echocardiography, heart failure, inherited cardiac conditions, maternal cardiology, pulmonary hypertension and valve disease. Two academic consultants have joint appointments with the University of East Anglia Medical School. Four cardiology consultants hold joint appointments with JPUH, providing non-invasive services and investigations.

This is a 10 PA post, but a candidate who is unable for personal reasons to undertake the duties as described will receive equal consideration. We welcome all applications irrespective of age, disability, gender, sexual orientation, race or religion. The Trust operates job share and flexible working.

For informal enquiries please contact Dr Alisdair Ryding, Cardiology Service Director, on 01603 287690, or Dr Sunil Nair, JPUH Service Lead on 01603 453772.

AAC panel will meet 20<sup>th</sup> June 2024

**Please refer to the 'Job Description' link to the right of the page for the full post specification.**
